It is time once again to get ready for our Fall Harvest Days here at Goodells County Park. This community fund raising event helps us pay the insurance for the Farm Museum and helps pay the heat bills all year. We are a nonprofit organization and are not in any way funded through St. Clair County Parks and Rec. We understand that you receive many requests for sponsorships. Your 2024 Fall Harvest Days sponsorship will help build an educational and family friendly event.

The barns we utilize at the park are owned by the park, but we keep them open from April through Oct to pay the rent on them. We also do tours by request for other nonprofits, family reunions, and school field trips throughout the year. We have a beautiful museum here at Goodells County Park that is operated by volunteers.

The Farm Museum was started back in the early '60s then known as the St. Clair Co. Historical Farm. Its original mission was "Preserving a bit of history for tomorrow." In 1967 it was incorporated as the St. Clair County Farm Museum. Our name may have changed but the mission is still the same. The museum is located on the site of the former St. Clair County Poor Farm to demonstrate how families lived and worked on farms in years past.

We are asking for some help from local businesses for our 40th Annual Fall Harvest Days August 23rd, 24th, and 25th 2024. We put on demonstrations throughout the weekend to show the public how people used to live and work on farms the back in the early days. We know you get asked for donations frequently, but we only do this once a year to help pay for the things we need to put on our show for the public. Every year we try to make it a little different and more interesting for adults as well as children. Also, we are continuing with crafters, vendors, and demonstrations.

Enclosed is a sponsor sheet that explains what we are offering to our sponsors. We would appreciate any help that you may be able to give to help us put out a quality show for all.
